SPRING, SUMMER, AND WINTER MEDICINE.
The great beauty and superiority of this sursaparilla over all other remedies is, while it eradicates disease, it invigorates the body.
Consumption cured.
Cleanse and strengthen.
Consumption can be cured.
Bronchitis, consumption, liver complaint, coldr, coughs, catarrh, asthma, spitting of blood, soreness in the chest, hectic flush, night sweats, difficult or profuse expectoration and pain in the side, &c., have, and cun be cured.

Probably there never was a remedy that has been so successful in desperate cases of consumption as this. It cleanses and strengthens the system, and appears to heal the ulcers on the lungs, and the patients gradually regain their usual health and strength.

CURIOUS CASE OF CONSUMPTION.
There is scarcely a day passes but there are a number of cases of consumption reported as cured by the use of Dr.

Ds. Townsker Dr. R. etc. For the last three years I have been afficied with general debility and nervous consumption of the last stage, and did not expect to ever gain my health stall. After going through a course of medicine, under the care of the med dastinguished regular physicians and members of the board of health in New York and elsewhere, and spending the most of my straings in attempting to regain my health; and, after reading in seize pager of your sareaparilla, I resolved to try it. After using its bottles, I found it did me great good, and called to see you at your office. With your advice, I kept on, and do most heartily thank you for, your advice, I kept on, and do most heartily thank you been able to attend to my usual labors for the last four months; and I here, by the blessing of God and your sareaparilla, to continue my health. It halped me beyond the expectations of all that knew my case.

Da. Townseno: I verily believe that your sarsuparilla has been the means, through Providence, of saving my life. I have for several years had a bad cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly deblitated and reduced, and did not expect to live. I have only used your sacesparills but a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results.

Your obedient servant,

LOST HER SPEECH.

The annexed certificate tells a simple and truthful story of suffering and relief. There are thousands of similar cures in this city and Brooklyn, and yet there are thousands of parents who let their children die for fear of being hymbologically, or to save a few shillings:

BROOKLYN, September 13, 184

BROOKLYN, September 13, 18DR. Townern: I take pleasure in stating, for the benefit of those
whom it may concern, that my daughter, two years and six months
old, was afficied with general debility and loss of speech. She was
given up as past recovery by our family physician; but fortunately
I was rescommended by a friend to the your arrasparills. Refore
having used one bottle she accord to her speech and was enabled to
walk alone, to the astociation of all who were acquainted with
the circumstantess. She is now quits well and in much better health
than she has been for eighteen months past.

JOSEPH TAYLOR, 128 York st., Brooklyn.

TWO CHILDREN SAVED. Very few families, indeed—in fact we have not heard of one—that used Dr. Townsend's Sarsaparilla in time, lost any children the past summer, while those that did not, sickened and died. The certificate we publish below is conclusive evidence of its value, and is only another instance of its saving the lives of children:

DR. Townersh: Dear sir—I had two children:

MENTLE AVENUE, BROOKLYN, Sept. 15, 1847.

DR. Townersh: Dear sir—I had two children cured by your Sarsaparilla of the numer complaint and dysentery; one was only fifteen months old, and the other three years. They were very much reduced, and we expected they would die; they were given up by two respectable physicians. When the doctor informed us that we must loss them, we resolved to try your Sarsaparilla we had heard so much of, but had little coafidence, there being so much stuff advertised that is worthless; but we are very thankful that we did, for it undoubtedly saved the lives of both. I write this that others may be induced to use it.

Yours. Persentfulle.

Yours, respectfully, JOHN WILSON, Jr.

LUNATIC ASYLUM.

James Cummings, esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gendeman spoken of in the following letter:

RHEUMATISM.

This is only one of more than four thousand cases of rheumatism that Dr. Townsend's Sarssparilla has cured. The most severe and chronic cases are weekly eradicated by its extmoordinary virtues:

by its extenordinary virtues:

BLACKWELL'S ISLAND, Sept. 14, 1847.

Dr. Townseno: Dear Sir: I have suffered terribly for nine years with rheumatism; considerable of the time I could not est, sleep, or work; I had the most distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsararilla, and they have done me more than one thousand dollars' worth of good—I am so much better. Indeed, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted.

Yours, respectfully, JAMES CUMMINGS.

COULD NOT WALK.

That Dr. Townsend's Sarsaparilla is the very best remedy for female complaints, there is no disputing. Thousands and thousands of weak and debilitated females, there were prostated by those diseases to which females are subject, were soon in the enjoyment of robust health.

subject, were soon in the enjoyment of robust health.

Dr. Townsend: Dear Sir: My wife has for the last year been very sick, and in a greatly reduced state of health, being reduced by averiety of complaints such as females are liable to. She got so bad at length, that she was entirely unable to walk, and was as helpless as child. She commenced using your Saraparilla, and she immediately began to regain her strength, her complaints left her, and after taking soveral bottles she is restored. Being a singular case, i have thought it might do good to publish it. She used a number of remedies that did her no good previously. Yours, respectfully,

JOHN MULLEN, 57 Norfolk street.

cure for incipient consumption, and for the general pros-tration of the system, no matter whether the result of inhe-rent cause, or causes produced by irregularity, illness, or

accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons, all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause

or parrenness.

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed; but we can assure the afflicted that hundreds of cases have been reported to us:

ported to us:

Dr. Towsenn: My wife being greatly distressed by weakness and questal debility, and suffering continually by pain and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sarvaparilla, and followed the directions year gave me. In a short period it removed her complaints, and restored her to health. Being grateful for the benefit she received, I take great pleasure in thus acknowledging it, and recommending it to the public.

This Extract of Sarsaparilla has been expressly prepared in reference to female compiaints. No female, who has reason to suppose she is approaching that critical period—"the turn of life."—should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicina. Nor is it less valuable for those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed, this medicine is invaluable for all the diseases to which women are subject.

which women are subject.

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body—not so far stimulating the system as to produce a subsequent relaxation, which is the case of most medicines taken for female weakness and disease.

DISEASE OF THE HEART, RUPTURE, AND DROPSY.

DISEASE OF THE HEART, RUFTURE, AND DROPSY.

Dr. Townsewd: Dear sir: My wife has been afflicted with a disease of the heart, and with a terrible rupture, for over fifteen years. The greater part of the time she has been troubled with shortness of breath and great fluttering of the heart, which has been very distressing, and has frequently been unable to leave her bed. The rupture was very large and severs. She tried simost every remedy for such cases, with but liftle benefit. When she had taken but three bottles of your excellent medicine, she was entirely relieved of the disease of the heart, and the rupture has almost entirely disappeared. She has also had the dropsy, and was very much awellen. We had no idea that she could be so benefited, as she had such a compilication of diseases. But it has, as strange as it may appear, relieved her of the dropsy. I am aware that this statement is so strange as to appear almost like fiction; but it is, nevertheless, sober reality. Your asrasparilla is certainly a valuable medicine, and should be used by every one that is sufering as we have been. If any distelless this secount, they are at librity to call at my house and have ocular demonstration.

DYNPEPSIA

DYSPEPSIA.

No fluid or medicine has ever been discovered which so nearly resembles the gastric juice or saliva in decomposing food, and strengthening the organs of digestion, as this preparation of sarsaparilla. It positively cures every case of dyspepsia, however severe or chronic:

Da. Townsen: Sin: I have been afflicted for several years with dyspepsia, in its worst form, sitemeds with sources of stomach, loss of appetite, extreme heartfurn, and a great aversion to all kinds of food, and for weeks (what I could eat) I have been unbla ta-vestion but a westle portion on my stomach. I tried the usual researches, but they had little or no effect in removing the complaint. I was induced, about two months sinces, to try year extract of sar-saparilla, and I must say with little confidence; but after using mearly two bottles, I found my appetite restored, and the heartburn endirely removed; and I would earnestly recommend the use of it to these who have been efficied as I have been.

Yours, &c.,

W. W. VAN ZANDT.

Of the importance of this work, if well done

Of the importance of this work, if well done, nothing need be said, for it is obvious to every lawyer. The following letter from Professor Greenleaf shows his opinion both of the necessity of the Digest, and the manner in which it has been prepared: Самвинови, March 4, 1848.

Cambridge, March 4, 1848.

Messrs. Little 4 Brown:

I have received your letter requesting my opinion of the merits of the United States Digest. You will recollect that several years ago I strongly advised the preparation of one general digest of all the judicial decisions of the United States down to the time of its publication, and a subsequent annual publication of all the decisions in the preceding year, after the manner of Harrison's English Digest. I had long felt the want of such a work, and had no doubt of its esceptableness to the profession, as it would furnish a complete synopsis of the common law in all the States, with annual information of its progress and improvement, and would entirely supersed the use of State digests, besides relieving the profession from the expense of many separate volumes of reports, and the trouble and delay in procuring them.

Your five volumes aiready published have fully accomplished that design, in a manner, I believe, entirely satisfactory. It is as trustworthy as any digest I have had occasion to make use of, and will naturally find a place in the library of every careful lawyer Nothing now remains but a table of cases, which is much wanted, and the issue of the supplement at the close of every year; in which good work we shall wish you all possible success.

Of a majority of these reports no digests have hitherto been made; and of many of the others the digests are old, and consequently imperfect; and the expense of the digest of the United States Court Reports, and that of several of the individual States, is as much or more than the above-described digest of all the United States Court Reports, and all the State Reports; so that a lawyer will find it cheaper to buy the wnois, than to buy only those of the United States Courts and his own State.

Transportation of Stores.

Navy Department,
Bureau of Provisions and Clothing, May 10, 1848.

PROPOSALS, sealed and endorsed "Proposals for freight to the Pacific," will be received at this office until 3 o'clock, p. m. on Friday, the 16th day of June, 1848, for the transportation of 7,000 barrels (more or less) of government stores from the navy-yard at Brooklyn, New York, to the port of Monterey, on the west coast of North America. The offers must state the price asked per barrel, without distinction between wet and dry; and each barrel (or two half-barrels) of beef, pork, flour, rice, vinegar, pickles, whiskey, or dried apples, will be considered as a barrel; all other packages to be estimated at the rate of 64 cubic feet to a barrel, whatever they may contain; and, in the measurement of all casks other than barrels, the fifths will be deducted. No freight to be taken on board, or discharged on private account, at any intermediate port; and no primage to be allowed. Fifteen fair-weather working laydays to be allowed at each of the ports of Brooklyn and Monterey for taking in and discharging cargo. Payment to be made by any navy agent in the United States within thirty days after producing satisfactory evidence of the delivery of the cargo. The vessel must pass the usual inspection, and be at the Brooklyn navy-yard by the 26th day of June, 1848, ready to receive her cargo; and, if not presented for examination within three days after being nottled of her acceptance, the bureau will consider itself at liberty to offer the freight to the next lowest bidder, or to make such arrangement as may best subserve the public interests.

The written signature the only safeguard against counterfeits.—The public attention is invited, and particularly referred to the advertisement, setting forth the new style of labelling, and the putting up of Dr. Beckwith's anti-dyspeptic and dinner pills. Also to that of Dr. Dyott's ap proved anti-bilious pills; both of which, it may be seen, are protected from being counterfeited, by the only safe-guard to be depended upon—the warters stonaturers of the proprietors on the label of each box of pills.

All others which may be offered for sale by unprincipled persons are surely base counterfeits, and will be rejected as such. The pills that were in the hands of persons who purchased the genuine have all been exchanged for such as have the written signature of the proprietor.

The sole agency for the sale of Beckwith's anti-dyspeptic and Dyott's anti-bilious pills, is vested in the hands of T. W. Dyott & Sons, of the Columbian College, No. 122 North Second street, Philiadelphia, who will execute any orders for the same

Druggists and all wholesale dealers, who wish to be furnished with the genuine pills, will be supplied on the most iberal terms, by applying as above.

DR. BANNING'S BODY BRACE. Thousands of pe Dr. Banning's body brack.—Thousands of persons afflicted by pulmonary affections, dyspepsia, constipation, and various degrees of local or general debility, have been relieved by this instrument. It is particularly adapted to numerous ailments prevalent at the south, to spinal weakness, distortions, a tendency of the body to spinal weakness, distortions, a tendency of the body to lounge and droop, both in children and adults. By restoring the form to an erect posture, it enlarges the chest, so that the subject breathes freer and ensier, and thus many contractions of the chest, with attendant affections of the heart and lungs, are counteracted, and full play is given to the organs of respiration.

The brace may be had in this city by applying to Missladdwin, who will be in attendance at all times over the store of Mr. Peter Brenner, tailor, two doors below 4j street, ort the north side of Pennsylvania avenue. A gentleman will aid in adapting it to those who may call for the purpose.
